REV.0 01/2026

Preface

- All our steam cleaners are marked **CE** , therefore manufactured according to the European regulations EN 60335-1 EN 60335-2-2 EN 60335-2-79 and all the components used during the production process are always subjected to severe tests; the boilers, for example, are tested twice their rated pressure at room temperature for 5 minutes.

Our company policy is always focused on the continuous research for high quality and safety standards. A visible example is the presence of two overpressure valves, homologated according to the regulation 97/23CE PED even if the current rule requires just one overpressure valve.

This is the proof that we not only satisfy the EC regulations but we also try to be in the van of reliability of our steam cleaners.

- We kindly remind you that as per our supplier conditions, our products prices can't be displayed on internet.

- Prices marked with a red dot ● are subjected to a fix 50% discount.

Steam cleaner features

part 2/4

Control panel

For the management and control of all steam cleaner parameters.

Water mains connection

By connecting the generator to the water supply, it will not be necessary to refill the tank.

Automatic water refilling system

The water is automatically refilled in the boiler.

Manual boiler refilling

Steam cleaner without an automatic water refill system in the boiler. In order to refill it, wait until the boiler is completely depressurized and cooled down.

Power switch regulation

On request, the steam cleaner can be equipped with a selector to change the power output (kW).

Boiler maintenance signal

A CALC message appears on the front panel display when the boiler has to be cleaned.

Steam cleaner features

part 3/4

Internal water tank**

From 3 to 35 liters of capacity, refillable at any time.

*** The tanks use the heat generated by the boiler to maintain the temperature of the liquids at an optimum level, improving energy efficiency.*

Internal detergent tank**

From 1 to 20 liters, refillable at any time.

Steam pressure regulation

Pressure selection from 1 to 10 bar.

Detergent regulation

Possibility to decrease or increase the detergent flow.

Detergent injection

Possibility of delivering nebulized detergent combined with steam.

Overheated water injection

Possibility of delivering overheated water combined with steam.

CARMEN PLUS INOX - CARMEN MINI INOX - CARMEN S INOX

- Extension tubes holder
- Hose holder
- Cable holder
- Support mount for Steam Mop
- Accessories baskets - 2pcs

STEAM SKY

Forklift bracket & hose/cable holder

STEAM TECH

Accessories basket & hose/cable holder

JUNIOR STAR MAX

Hose and cable holder, accessories baskets

ARENA PLUS

Optional trolley

Arena Plus is a stainless-steel trolley which can be paired to the following models:
EVO 304, EVO BLU, TOSCA EVO, GAL, ELIS, TOSCA and EVO SANITIZER

- Cable holder
- Extensions tubes holder
- Hose holder
- Support mount for Steam Mop
- Accessories baskets - 2pcs

ANTARES

Optional trolley

Antares is a plastic trolley which can be paired to the following models:
EVO 304, EVO BLU, TOSCA EVO, GAL, ELIS, TOSCA and EVO SANITIZER

- Cable holder
- Accessories baskets - 3pcs
- Support mount for Steam Mop

New

Steam

Tosca-X
kW 2,4

Equipped with Steam-X:

- Steam gun that comes with an internal heating element of 400W which allows to reheat the steam at the output to 130°C.
- The special nozzle softens the steam flow to avoid any dispersion of bedbugs in the surrounding areas.
